Saarbrücken, 04.04.2020

Dear MABLE students,

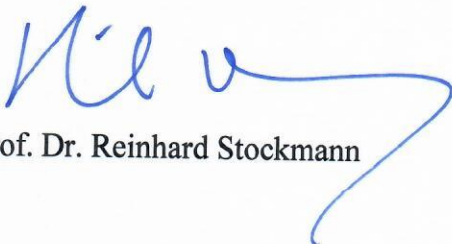

I hope you're all doing well during these difficult times. We were very lucky that we were able to hold our two face-to-face weeks at Saarland University without being affected by the corona virus and that you were all able to have a safe return back to your home countries.

Unfortunately, the worldwide situation has changed dramatically since then. I hope that you are sufficiently protected and will not experience any disasters, neither privately nor professionally. I also hope that you will be able to continue your studies. If you have any problems, for example to keep appointments, please contact our study program coordinators Sylvia Stoll and Birgit Schneider. Our university is closed down, but you can reach us in our home office and by mail and Skype.

This crisis also poses a great challenge for the implementation of evaluations. Travel and visits for the projects and personal contacts must be avoided. Evaluation is also facing great challenges, which we would like to address in the near future. But now we have only one thing to do, and this constitutes number one priority. Stay healthy!

Please take care of yourself, so that we all meet again in good health when the next face-to-face phase week takes place at Saarland University, at IPDET or when attending an international conference.

I wish you all this on behalf of the whole MABLE team

Prof. Dr. Reinhard Stockmann
